WHO SHARES, WINS.

The Jyväskylä Teacher Seminary was established in 1863 to share teaching and learning in Finnish with all. Today that same spirit of dialogue continues to drive us. It opens doors and minds between research, education and society. **We strive to kindle the skills, knowledge and passion to live wisely for the best of humanity.**

Our 2,500 professionals and 15,000 students collaborate closely in an open, multidisciplinary community, seeking answers to the questions of today – and tomorrow.

SERVING THE FUTURE.
SINCE 1863.

UNIVERSITY OF JYVÄSKYLÄ

Be JYUUnited.

UNIVERSITY OF JYVÄSKYLÄ

JYU. Since 1863.

JYU. MAKING SCIENCE SOCIAL

Welcome to the University of Jyväskylä! We are one of the largest and most popular multidisciplinary universities in Finland. Our six faculties host over 15,000 students from all over Finland and nearly 100 countries around the world.

Jyväskylä is a city of 138,000 inhabitants. The city is always on the move – it is cosy and vibrant, youthful and innovative. Jyväskylä is also a safe and pleasant place to live and study. It's a "little big city", where all the services, shops, schools and workplaces are close at hand.

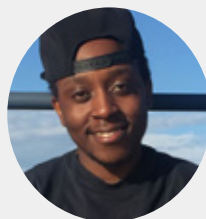

From the day one, I felt welcomed. JYU offers high quality education with the freedom to choose what and how to study. The University wants to develop and is open to change – they listen to students and seek constant feedback. There's always some activities happening – you never get bored!

MASTER'S DEGREE PROGRAMMES

JYU offers high-quality, research-based master's degree programmes in English in its fields of special expertise. International students are welcome to apply to the two-year programmes, which lead to an officially recognized Master's degree and qualify for doctoral studies. Tuition is free for EU/EEA citizens. For other students tuition fees range from €8,000 to €12,000 annually depending on the programme. JYU offers a scholarship programme for tuition-paying students.

JYU is a special and culturally diverse institution. I'm impressed with the resources available to use. It's easy to meet and get to know other students from other backgrounds around the world. The University allows one to easily interact and work with others while also learning and understanding the uniqueness of Finnish culture.

SPORT AND EXERCISE PROMOTION
ZIMBABWE

GET TO KNOW THE UNIVERSITY with your tutor and the Finnish way of life with your friendship family, take up new sports or languages, and enjoy cultural events!

STUDENT LIFE, SUPPORT & SERVICES

Students of the University of Jyväskylä are in good hands. JYU offers excellent academic support services for international students in cooperation with the Student Union.

The orientation programme is designed to help new international students settle in and get to know one another, the University and the city of Jyväskylä.

A student tutor is assigned to each new international student. Their task is to acquaint new students with campus life and to help them with practical study-related questions.

The friendship family programme is a great opportunity to learn more about Finnish culture and experience the Finnish way of life outside the campus.

Language courses are arranged for international students both before and during the academic year, ranging from intensive beginners' courses to advanced levels.

Extensive free time activities including sports and exercise opportunities as well as music and culture events at JYU are almost limitless!

STUDENT EXCHANGE

The University of Jyväskylä offers non-degree programmes and courses with instruction in English for exchange students in a variety of fields.

HOW TO APPLY

All students from our partner universities are welcome to apply for student exchange at the University of Jyväskylä within the frameworks of Erasmus+, Nordplus, ISEP, Becas Chile or the FIRST+ programme, or as part of a bilateral exchange agreement. Apply and spend a semester or two with us!

STUDENT EXCHANGE
