Let's change

That's what The Hague University of Applied Sciences encourages everyone to do. We want to change and improve the world we live in. But that can only happen if we work together, evolve and change ourselves. If we take a critical look at our present and future situation, we will see that we need new perspectives and solutions. We will find them more quickly if we constantly share and learn to apply one another's insights, skills and methods.

Over 500 exchange partners

THUAS has over 500 exchange partners and a close collaboration in more than 50 countries: from Brazil to China, from Australia to The United States and several countries throughout Europe.

Global citizens

That is why we encourage our students, lecturers and partners to develop into open-minded global citizens – to stand firm in their own convictions and face the world. We realise that our own professional commitment makes a difference. We are creating a secure, involved environment in which these global citizens can develop and innovate. So let us share, network and practice. After all, this is how we shape and change our view of the world as well as our knowledge and skills in order to truly add value.

Studying at THUAS

THUAS is an innovative environment where almost 27,000 students from nearly 146 different countries come together to share in development, networking and practice. All of our programmes revolve around group and project work and simulate real-life situations. During interactive classes, your lecturers will ask questions, set assignments and encourage debates and presentations to hone analytical skills that are critical in business.

Down time

Besides the more serious events, there are also plenty of opportunities to socialise and just have fun. You can join one of THUAS's many student organisations, ranging from international associations to the rowing club or student orchestra. Our cultural office (ACKU) will keep you up to date with all kinds of cultural events in The Hague.

About the international vibe

Hugo Martinez

Exchange student from Spain
Campus Delft

“ Instead of working on a project on my own, I have the opportunity to work with students from all over the world. We are making an electric car together. The car is important, of course, but being in the Netherlands is also a nice change of scenery. The campus is so different – it’s green and everything here is infused with innovation. ”

Why The Hague

The Hague is the perfect location to become a world citizen. It's the International City of Peace and Justice - the political and cultural heart of the Netherlands. It's home to the Peace Palace, International Court of Justice, Binnenhof (parliament), 115 embassies, multinationals like Shell, Siemens and ING and many international NGOs. It's a small and hospitable city with a big international heart. The Hague is bursting with culture and creativity and offers students an all-round experience, from galleries packed with Dutch masters to idyllic beaches, parks and buzzing nightclubs.
