EU4Dual

SPORT AND NATURE

The Basque Country will surprise you, with its natural environment dotted with rich ecosystems, a mixture of coast and mountains, nature reserves and protected landscapes. In this privileged setting, you can actively enjoy the nature around you through trekking, climbing, surfing and other thrilling sports.

COSMOPOLITAN CITIES

You can also enjoy the cosmopolitan environment and great cultural vibrancy of cities such as Donostia-San Sebastian, Bilbao, Pamplona and Vitoria-Gasteiz.

CUISINE AND CULTURE

Euskal Herria (Basque Country) possesses an ancient language, euskara or Basque, the essence of one of the oldest cultures in Europe.

Its cuisine is another of its treasures, ranging from Michelin-starred restaurants to miniature cuisine, through the typical tasty morsels known as pintxos you can enjoy in pubs.

CLOSE TO EVERYWHERE

And if all this was not enough, in just two or three hours by plane you can travel from here to virtually any European capital.

have a great experience!

Mondragon University is a socially-oriented, non-profit-making cooperative university of public utility which is open to the whole of society and targeted towards the needs of companies, institutions and organisations.

THE UNIVERSITY EDUCATES PEOPLE IN NINE AREAS OF KNOWLEDGE:

- BUSINESS ADMINISTRATION
- COMMUNICATION
- EDUCATION
- ENGINEERING
- ENTREPRENEURSHIP
- GASTRONOMIC SCIENCES
- COOPERATIVISM
- DIGITAL HUMANITIES
- DATA SCIENCE

IT HAS FOUR FACULTIES AND 9 LOCATIONS:

		<p>Faculty of Engineering Arrasate-Mondragón, Goierri, Orona Ideo (Donostia - San Sebastián) and Bilbao</p>
		<p>Faculty of Business Studies Oñati, Bidasoa and Bilbao</p>
		<p>Faculty of Humanities and Education Sciences Eskoriatza, Aretxabaleta and Bilbao</p>
		<p>Faculty of Gastronomic Sciences Basque Culinary Center Donostia-San Sebastián</p>
		<p>Bilbao AS Fabrik Bilbao</p>

7 LABS ALL OVER THE WORLD

- MADRID, BARCELONA, MALAGA and VALENCIA [SPAIN]
- PUEBLA [MÉXICO]
- BERLIN [GERMANY]
- SEOUL [SOUTH KOREA]
- SHANGAI [CHINA]

COOPERATIVE UNIVERSITY

Our project involves searching for progress linked to a commitment to society, as well as promoting values such as **cooperation, participation, social responsibility and innovation.**

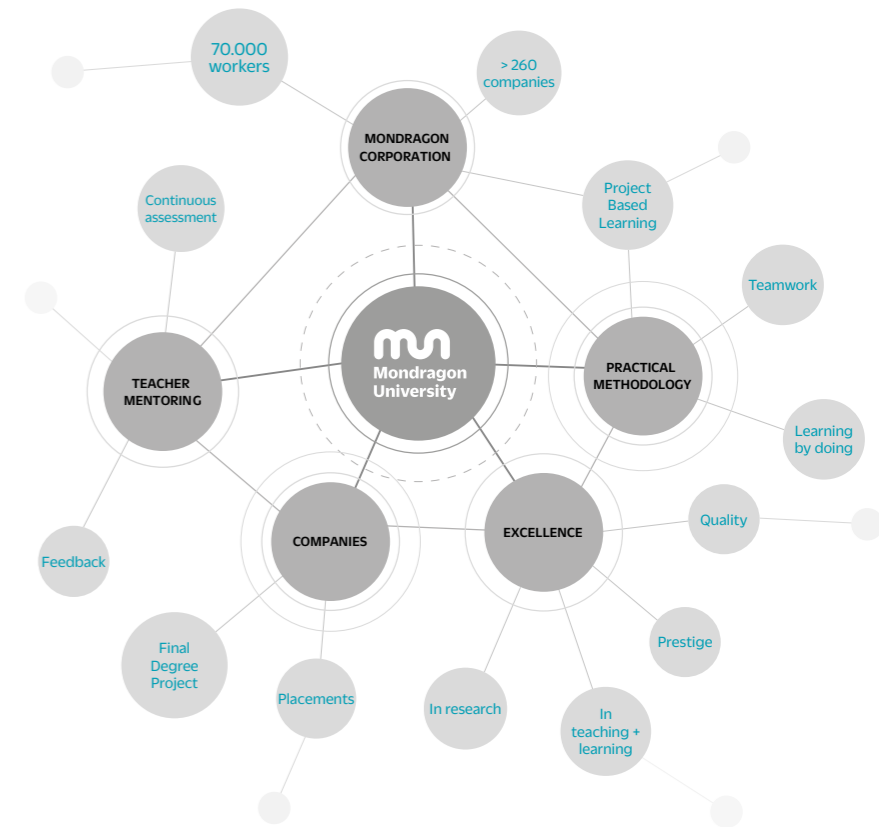

In addition, we are able to adapt quickly to technological and socioeconomic changes that occur in our area of influence.

The MONDRAGON Corporation, of which we are part, with its 70,000 workers, is the largest Basque business group, the seventh in Spain, and the main global benchmark in cooperativism. Located in 260 sites, boasting 94 production plants abroad and 9 local corporate offices, this business group works in the areas of industry, finance, distribution and knowledge.

Leaders of the EU4Dual alliance for Dual University training, together with:

- Duale Hochschule Baden-Württemberg (Germany)
- ESTIA - Institute of Technology (France)
- The Malta College of Arts, Science & Technology - MCAST (Malta)
- John von Neuman University GAMF Faculty of Engineering and Computer Science (Hungary)
- Koszalin University of Technology (Poland)
- Savonia University of Applied Science (Finland)
- PAR University of Applied Sciences (Croatia)

MASTER

MASTER'S DEGREE IN DIGITAL MARKETING

The Master's Degree in Digital Marketing aims to respond to the needs of businesses in any industry. It is an essential tool for the digital economy, which requires organisations to reinvent themselves constantly and which creates opportunities for entrepreneurs or companies that know how to benefit from them. The Internet facilitates the application of marketing principles, supported by on-going dialogue and interaction with customers. The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

- Bilbao
- Spanish
- Exchange
- Full program

MASTER'S DEGREE IN INTERNATIONAL BUSINESS MANAGEMENT

The Master's Degree in Internationalisation of Organisations (MIO) aims for participants to experience first-hand the internationalisation and cultural adaptation of companies through the combination of three elements:

- Real experience in business abroad.
- Methodology based on learning by doing.

The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

- Bilbao
- English, Spanish
- Exchange
- Full program

MASTER'S DEGREE IN STRATEGIC MANAGEMENT OF PEOPLE'S TALENT

The Master's in Strategic Management of Personal Talent - MTalent is geared towards addressing needs in the fields of management and personal development in organisations in any sector and offers a distinctive experience through the Life Cycle development of a person in an organisation.

The programme is directed towards developing highly qualified professionals who want to work with and for people in diverse organisational contexts beginning with individual development and with awareness of the impact of personal and organisational actions on society.

- Oñati, Bidasoa, Bilbao
- English, Spanish
- Exchange
- Full program

The general goal is to provide the skills needed to design, implement and manage strategic personal development projects in companies and organisations that foster competitiveness.

MASTER'S DEGREE IN ACCOUNTING AND FINANCIAL MANAGEMENT

The Master's Degree in Accounting and Financial Management aims to respond to the needs of businesses in any industry. It is an essential tool for gathering economic and financial information and evaluating financial risks, as well as managing this in multi-location companies. The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

EDUCATION

www.mondragon.edu/en/mobility-programmes/exchange-students/education

BACHELOR'S DEGREE IN INDUSTRIAL DESIGN AND PRODUCT DEVELOPMENT ENGINEERING

The main objective of the degree is to train design engineers who are capable of creating new products, concepts and services that contribute added value to the company and the market. Industrial designers pursue their professional occupation in a multidisciplinary environment where creativity and innovation acquire special relevance. The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

- Arrasate-Mondragón
- English, Spanish
- Exchange

BACHELOR'S DEGREE IN INDUSTRIAL ELECTRONICS ENGINEERING

Industrial Electronic engineers, among other things, can work in control and automation of industrial processes and in integration of electronic systems. Furthermore, they can find professional opportunities in different sectors, such as in the machine tools, industrial product production, automotive and aeronautics industries. The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

- Arrasate-Mondragón
- English, Spanish
- Exchange

BACHELOR'S DEGREE IN INDUSTRIAL ORGANIZATION ENGINEERING

Graduates in Industrial Organisation Engineering make industrial and service activities competitive and sustainable, by promoting improvement and innovation in products, services and technological processes as well as organisational models. They pursue their professional occupation in a wide range of positions of responsibility within the organisation. Industrial Organisation Engineering graduates lead teams, encourage people's participation and involvement to tackle the strategic challenges of organisations and also have to take decisions with a global and strategic vision taking into account the different stakeholders. The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

- Arrasate-Mondragón
- English, Spanish
- Exchange

BACHELOR'S DEGREE IN MECHANICAL ENGINEERING

Mechanical Engineering deals with the design and manufacture of machines and equipment of the most varied nature, as well as the design, development, installation, production and maintenance of many industrial processes and plants. Mechanical engineers can manufacture and operate everything that we know as a machine, that is, everything that has movement or produces and/or consumes energy. They work in business activities such as the construction of aircraft and spacecraft, metallurgy and production of energy, technical services involving engineering, education, etc. The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

- Arrasate-Mondragón
- English, Spanish
- Exchange

MASTER

MASTER'S DEGREE IN BIOMEDICAL TECHNOLOGIES

The Master's Degree in Biomedical Technologies responds to the need for highly qualified personnel that responds to and drives advances in the health sector. Thus, the students will acquire in-depth engineering knowledge applied to the field of biomedicine, training experts who are capable of innovating, designing, developing, evaluating and maintaining various medical diagnostic and/or treatment devices.

- Arrasate-Mondragón
- English, Spanish
- Exchange
- Full program

MASTER'S DEGREE IN BUSINESS INNOVATION AND PROJECT MANAGEMENT

The Master's Degree in Business Innovation and Project Management is targeted towards responding to the key challenges facing companies in today's economy, where speed in realising an idea and efficiency in development are critical in getting a competitive advantage. In this context, innovation and project management are essential for performance optimisation in organisations. The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

- Orona Ideo (Donostia-San Sebastián)
- English, Spanish
- Full program

MASTER'S DEGREE IN ENERGY AND POWER ELECTRONICS

The main objective of the degree is to train highly qualified professionals in the study and specific analysis of applications of power electronics (energy generation, renewables, industrial applications, traction, etc.); in the study and specific analysis of electronic power converters (design, modelling, control and analysis); and in the study and analysis of electrical machines (design, modelling, control and analysis). The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

- Arrasate-Mondragón
- English, Spanish
- Exchange
- Full program

MASTER'S DEGREE IN INDUSTRIAL ENGINEERING

The Master's Degree in Industrial Engineering is designed to provide specialised, advanced and multidisciplinary training in the field of industrial technology and that will prepare students to undertake, plan and integrate innovative technologies. Furthermore, it offers the opportunity to specialise in the following two specialisms: Structural Mechanics, and Materials and Processes. The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

- Arrasate-Mondragón
- English, Spanish
- Exchange
- Full program

MASTER'S DEGREE IN STRATEGIC DESIGN OF PRODUCTS AND SERVICES

The main objective of the course is to train professionals who are capable of promoting and generating new products and services focused on the user through a process of strategic design. The full-time course, worth at least 30 ECTS credits, will include: classes, hands-on training, teamwork, etc. The course is implemented in two semesters: an autumn semester and a spring semester.

- Arrasate-Mondragón
- English, Spanish
- Exchange

ADMISSION

Please **complete the online application form** to be able to study at Mondragon Unibertsitatea as an exchange student:

<http://www.mondragon.edu/inskripzioak/eng/users/login>

After completing the form, the following documents must be sent:

- Official transcript of your academic record from your home university.
- Copy of your valid identification document or passport.
- List of subjects chosen (Learning Agreement).
- Photograph.

The period for sending the requested information is:

- For autumn semester or full year: 15th March to 15th May.
- For spring semester: 15th September to 15th November.

Approximate dates of the duration of the semester:

- **Autumn semester:** early September to late January.
- **Spring semester:** early February to late June.

Exchange students from partner universities should not pay any enrolment fees.

FACILITIES

LIBRARY

The MONDRAGON UNIVERSITY Library is a resource centre for learning, teaching, research and activities related to the functioning and the management of the university as a whole. The library's mission is to disseminate the information resources and provide access to the technological resources necessary for the progress of the university's learning processes and knowledge creation.

The library occupies a total area of 2,782 m², spread over four campus sites. It has a wireless network, 580 workstations, 15 classrooms for individual and group work, a freely accessible work room, 130 PCs, scanners, photocopiers, printers and audiovisual equipment. It also offers a loan service for laptops, cameras, video cameras, tablets and e-readers, wireless cards, audio recorders, earphones and so on.

From the library's computer equipment, the students can access, according to a profile established for each one, all the computer applications needed to progress in their training.

The collection is comprised of 85,000 volumes and 950 periodical publications on paper, and there is access to more than 30,000 books and 3,000 journals in electronic format. Moreover, its website provides access to the main scientific information portals, the library catalogue, the reservation programme and the bibliographic manager Refworks, among other resources and services.

SPORTS SERVICE

We offer a service to the entire MONDRAGON UNIVERSITY population (students and workers) which has been qualified as excellent, involving playing and promoting different physical and sporting activities and managing these in a customer-user-oriented manner.

To help promote university life through physical, sporting and healthy activities, establish ways to foster and improve relations between workers and students through physical, sporting and healthy activities and pursue the objectives of the Mendeberry educational project through sport and physical activity. Furthermore, thanks to the sports service we encourage an active lifestyle among the population of MONDRAGON UNIVERSITY and promote relationships between universities through university sport.

ACCOMMODATION

The Internationalisation Office will offer you information and guidance about finding accommodation.

There are two options for exchange students and internationalisation students.

Biteri Hall Of Residence:

This hall of residence is located in Arrasate-Mondragón, near the Faculty of Engineering.

This institution is an organisation that aims to serve to support you in your studies. It will cover your basic needs and help you with your academic and non-academic training.

Shared flat:

The flat-share service is offered in coordination with a real estate agency. All the information about accommodation is available through the following link:

<https://www.mondragon.edu/en/welcoming-information/accommodation>
